Fax: 615.316.9800

Invitation for public input to ASPE Certification Program and Policies

The American Society of Professional Estimators' Certification Program is designed to establish credentials for estimating professionals that meet the criteria for the designation of CPE as determined by ASPE. This set criteria recognizes estimating proficiency and ethical awareness and provides estimators a means to validate their skills and knowledge.

The Certification Board researches, develops, and administers the Certification Program for the American Society of Professional Estimators through the authority granted by the Board of Trustees.

The Certification Board invites public comments pertaining to the current program and policies and invites suggestions for specific programs and/or skill development they would like to see as part of the Certification Program. The current Certification Program Guide is available at www.aspenational.org.

Members of ASPE are requested to direct comments in writing to their respective ASPE Certification Board Representative. All non-member's comments should be directed to the Society Business Office - ASPE, Attn: Certification, 2525 Perimeter Place Drive, Suite 103, Nashville, TN 37214.
